Yogesh Jeevan

Product Designer / UX Designer

Chennai, India · +91 8778417704 · yogeshjeevanv@gmail.com · LinkedIn · Portfolio

SUMMARY

AI-native product designer with 3 years shipping consumer (B2C) and SaaS products end to end, from research to high-fidelity UI and design systems. I explore in Claude Design and vibe-code working prototypes with Claude Code, while design decisions stay mine.

EXPERIENCE

Founding Product Designer (Part-time) · Doctiq — Mar 2025 – Present

Chennai, India · Clinic-management (EHR) SaaS

- Redesigned all 12 modules in 2 weeks as sole designer, with full error, empty, and loading states, plus a responsive patient-booking marketing site with micro-interactions; live with 2 clinics and 1 hospital.
- Pilot clinics reported documentation time falling from ~5 min to ~45 s per consult and ~40% more after-hours bookings via AI.
- Restructured dense clinical workflows for 3 non-technical staff roles, including an AI Inbox with AI-to-human handoff and an assistant chatbot, replacing flat lists with tabbed views and side drawers that keep the patient queue in view.
- Built an 8-component design system with colour, type, spacing, and radius tokens, shipped as 12 React components.

Founder & Creative Head · Modent Me — Nov 2025 – Aug 2026

Chennai, India · Creative studio

- Grew client reels from ~300 to 30,000+ average views, with some passing 100,000 and bringing real business enquiries, through humorous and informational videos and local influencer collaborations.
- Ran a small production team (scripts, shoots, schedules, delivery) for 3 clients on an AI-augmented workflow.

Product Designer · Strawberry Infotech (Client: Wall Street English) — Jul 2024 – Feb 2026

Chennai, India · Global EdTech, 15+ countries

- Grew Speak+ from 5 to 2,000+ paid subscriptions in 6 months by repositioning it from a standalone app into a core WSE feature.
- Cut onboarding time 13% and dropouts 19% by adding clear explainer copy and short explanation videos to the onboarding flow.
- Lifted class bookings 7% by redesigning the dashboard to highlight upcoming classes with topic, timing, and a pre-class countdown.
- Built a 25+ component mobile design system with variants, from tokens to organisms, and maintained the web design system.
- Designed native iOS and Android flows with edge-case and error states, plus Lottie and Jitter motion graphics.

Product Designer (Freelance) · Swimingo & Ducima Analytics — Nov 2023 – Aug 2024

Remote & Chennai, India · D2C SaaS for swim academies; financial-operations platform

- Swimingo: Redesigned the instructor and customer apps, marketing site, and brand guidelines for the Swimingo rebrand.
- Swimingo: Founder-reported ~90% retention lift by month 3 after the revamp, with ~40% higher instructor satisfaction (survey).
- Ducima: Designed user flows and wireframes for travel-spend, multi-step approvals, and expense visibility.

Associate Software Technologist · CES — Mar 2022 – Jul 2023

- Built user-facing interfaces in React, JavaScript, HTML, and CSS on Node.js APIs in a cross-functional team.

PROJECTS · AI-ASSISTED WORKFLOW

Personal Portfolio · Website · Link

- North and South Indian visual cultures in one identity; designed in Claude Design, built and deployed with Claude Code.

Go Calories · iOS app

- Calorie tracker for Indian cuisine in a monochrome Liquid Glass UI; designed in Claude Design, built in Xcode with Claude Code.

Learn Prep · PWA · Link

- Offline-first, no-subscription learning PWA (English, design); users choose their AI: own API key, Gemini Nano, or in-browser model.

SKILLS

Design: user research, user flows, wireframes, IA, interaction design, prototyping, visual design (typography, colour, layout), design systems, usability testing, accessibility (WCAG), A/B testing

Tools: Figma (Dev Mode), Figma Make, Claude Design, Claude Code, Lovable, Google Stitch, Codex, ChatGPT, Gemini, Lottie, Jitter, Adobe CS, Framer, Miro, Notion, Jira, Maze, Hotjar, GA

EDUCATION

B.E. Computer Science and Engineering · R.M.K. College of Engineering and Technology · CGPA 8.21/10 — 2018 – 2022
